Why Cleanall Services?

...for all your cleaning needs

Cleanall Services is a cleaning company that has aspired to be the cleaning company of choice over the past 25 years. The company was launched in Botswana in 1999, registered under Trans Africa Imports and Exports (Pty) Ltd and has grown from strength to strength over the years into one of the largest cleaning companies in the country.

Our shareholders are Helen Williams (Botswana) and Kelebogile Chipso (Botswana), whom along with Steven Williams (United Kingdom) are directors of the company.

Cleanall Services currently employs over 700 Batswana staff, who receive on going training on our cleaning systems and education on the importance of hygiene, safety and how to give our customers the type of service they deserve.

We currently provide a combination of soft services to all of our clients countrywide, by combining our solutions and many offerings into one contract. We offer an all-round service that helps make our clients' premises or workplace, cleaner, healthier and more pleasant to be in and in turn, giving a true reflection of their brand to their customers

Out sourcing to CleanAll means these important roles within a working space are done more efficiently and cost effectively. We create a peace of mind and an environment where people feel more comfortable, therefore more focussed and effective themselves.

Our commitment to service excellence is unparalleled within the field of contractual and non-contractual cleaning services. We believe in high quality service, attention to detail, regular management inspections and an open relationship with our clients, which is all of vital importance to the synergy and sense of teamwork we create.

COMPANY PROFILE

Flowers, trees & shrubs.

Friendly Flowers

Its unbelievable how real they look

Why go through the hassle and expense of buying a fresh bouquet for your offices or home every week? They don't last in the wilting heat, drop petals, and pollen, and can trigger allergies.

For only P456 rental fee a month, Friendly Flowers can provide beautiful silk flower and plant arrangements that will bring light and life to any space. As our slogan says; 'it's unbelievable how real they look' and apart from being allergen-free and not making a mess, they stay as 'fresh' as the day they were delivered. We change your arrangement monthly to give some variation to match and compliment the décor in any space.

Indoor Plants

Enhance your indoor space with our live plant offerings.

Friendly Flowers doesn't just offer stunning silk floral arrangements, but we also provide live indoor plants for rent or purchase. We'll even come to your location to install them and elevate the look of your space. Did you know that indoor plants can improve air quality, reduce stress, enhance your sense of well-being, support cognitive health, and improve environmental wellness?

Give us a call at 3912557 or 72 186 565 to learn more about our offerings.
